THE GALVARIC BELT'S, BAACEETE, BANDS, GARTERS, NECKLACES, &c. &c. —These articles are adapted to the waist, arms, wrists, limbs, ankles, or any part of the body with perfect convenience. The Calvanic Necklaces are used with greater benefit in cases of bronchitis or affections of the throat generally; also, in cases of nervous deafness; and with almost uniform success as preventive for appoplexy, epileptic fits, and similar complaints.

Christie's Magnetic Fluid is used in connexion with the Galvanic Rings, and all their modifications. This composition has been pronounced by the French Chemists to be one of the most extraordinary discoveries of modern science. Full explanations and directions accompany it. The combined inventions are in every way perfectly harmless; they are at prices within reach of all, and the discoverer only requests a fair trial, as a test of their surprising efficacy and permanent benefit.

Cursatta's Galvante Strenetzenino Plas-tras,—These sticles form another valuable applica-tion of the mysterious influence of Galvanism. They are an important adjunct to the genuine Galvanic Rings and their modifications, acting upon the same principle, but having the advantage of more local ap-plication. They are confidently recomended as a valuable addition in the speedy cure of rheumatism, acute or chronic; in all nervous complaints, and as a positive remedy in cases of pain and weakness in the chest or back, pain in the side, in asthmatic affections and in weakness or oppression of the pulmonary or-gans. In spinal complaints their effects are of the most decided character, and they have often been used with complete success. They are also of the greatest advantage in pains and weakness of the breast, and are highly recommended for many of those complaints to which females are especially li-able. As an effectual means for strengthening the system when debilitated with disease and other cau-ses, as a certain aid in constitutional weakness, as

OR RUSSIAN BATH.

THE subscriber, (through the persuasion of many intimate friends) has been induced to fit up the above establishment, (a bath never before known to this community) for the purpose of rendering every necessary convenience and luxury to the citizens of this metropolis.

In effering to the public the advantages of this most deligaliful bath, he would say to those who are in a state of physical debility, that there is nothing known that is so well calculated to restore the energies of the human system. The most delicate female under its influence improves in strength with most astonishing rapidity.

Connected with this mode of bathing, he has introduced the Sall-water Vapor, and Shower Bath giving to those who desire it, all the advantages of Sea-bathing, without the trouble and expense of a trip to the Capes.

His rooms are situated on the corner of 4½ street and Missouri avenue. Open at all hours from six in the morning till nine at night.

Thursdays of each week are set spart for the special accomplodation of Ladies, when a lady will be in attendance to wait on those who may please to visit this establishment. The public are invited to give this Bath a trial.

COLLETON BITTERS.

THESE Bitters are purely a vegetable compound, and are offered to the public from principle of benevolence, under the fullest conviction that they will be found a safe and sovereign semedy for Dyseppsia. They have been triumbantly tested, not only by some of the most respectable families and physicians in the State of south Caroliria, who have furnished ample testimony as to their decided excellence, but also by the proprietor, who, for ten years, suffered all the gloom incident to that stubborn and distressing disease.

They possess the peculiar excellence, denied to most other Bitters, of not proving injurious by continued use. They contain not a single deleterious ingredient, and, as seen from the directions which accompany each bottle, may be given with entire seriety to an infant in the month.

with pleasure, and of the centeric of mankind, I send you a certificate relative to the Colleton Bitters.

In the year 1838, when the cholers was in Charleston, S. C., I was compelled to send a servant to the city. On his return, he was suudenly attacked with most violent pain in his bowels, so much so as to cause apprehension that he would expire in a short time, if medical sid could not be procured. I is immediately resorted to the Colleton Bitters, by giving a wine glass full at a dose. In the course of a very short time it acted as an emetic, and throwing him at the same time into a profuse perspiration. I then continued to give it in small doses, from two to there tea spoonsfull, which resulted in a happy recovery. Since then I have been using it constantly in my family, in cases of cholers morbus, cholera infantum, diarrheas and general debitity, and in every instance found it highly beneficial. Some constitutions, however, require much larger doses than others.
